ARROW Leds

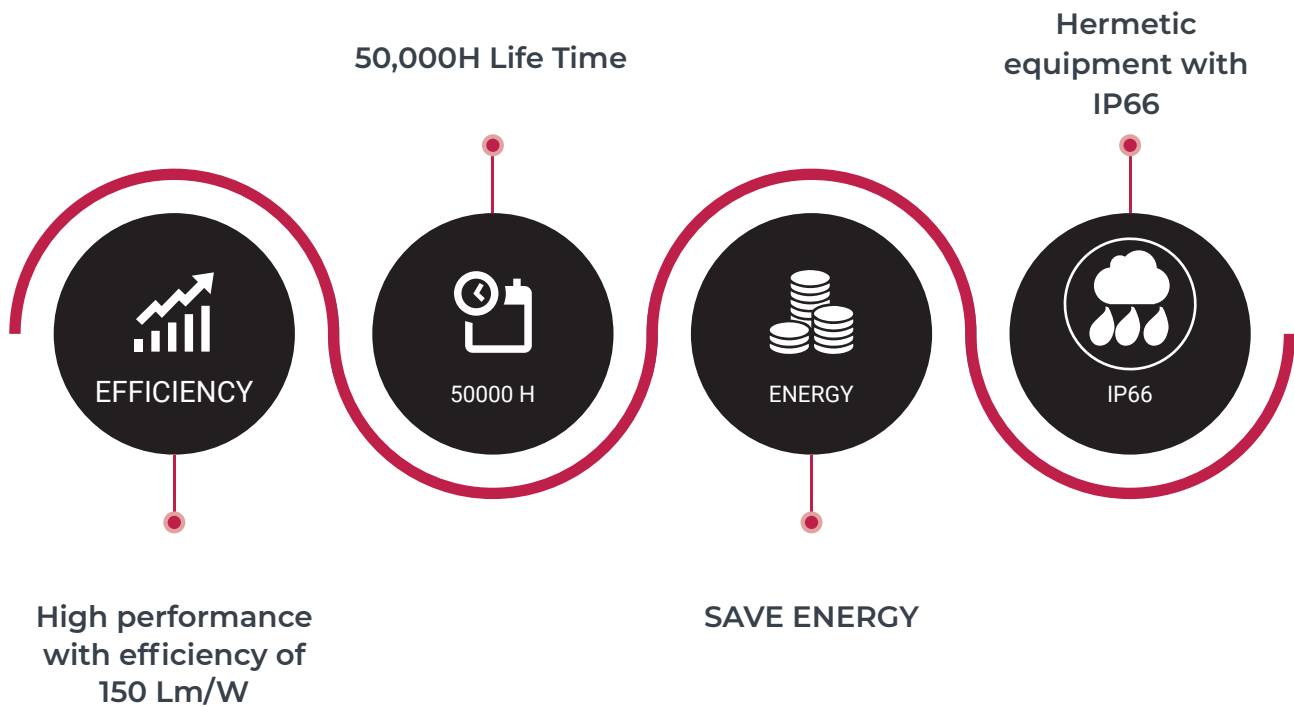

The Arrow® LED available in various powers and equipped with efficient LEDs and SOSEN driver technology, our Arrow® series LED offer users not only the superior quality of lighting indoors and outdoors, but also supreme reliability.

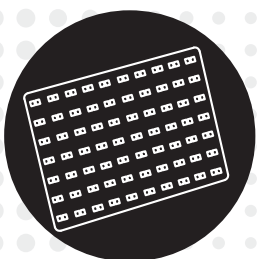

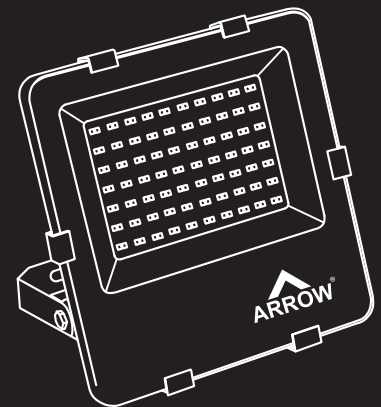

With uniform photometric distribution, this LED spotlight achieves high luminous efficiency with 150Lm/w.

Thanks to a robust aluminum housing with a safety glass cover, the Arrow® floodlight with IP66 certification is ideal for outdoor lighting, as a wall mount around building facades, gardens, sports courts such as paddle tennis or tennis and even outdoor parking lots.

Led projector characteristics

- Robust aluminum structure
- Hermetic equipment with IP66
- High impact resistance of IK08
- Suitable for outdoor use
- Temperature from -40°C to $+50^{\circ}\text{C}$
- Static Integrated Driver

Whether you're looking to enhance the aesthetics of your space or seeking an efficient and powerful lighting solution, our Professional LED is the answer. Invest in quality lighting that meets the demands of professional settings and transforms the way you experience illumination. Elevate your surroundings with our Professional LED – where precision meets perfection.

TECHNICAL CHARACTERISTICS

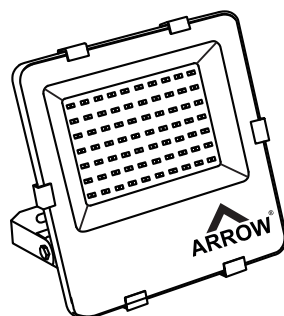

SPECIFICATIONS

- > Housing: Cast Aluminum
- > Conductivity: 96 W/m K
- > Led: Sanan
- > CRI: Ra>80
- > SDCM: <6
- > Power factor: >0.95
- > Constant Current: 1,05A
- > Power Supply: 100-277V, 50/60Hz
- > Driver efficiency: >90%
- > Lamp Lum. Efficiency: 150LmW
- > Surge protection: 4KV
- > Beam Angle: 120°
- > Impact test: IK08
- > Operating temp: -40~50 °C
- > Life Time: 50,000H
